

Sony PMW-EX3

1 XV-04 nanoFlash Remote Tally Cable

This is a nanoFlash remote tally cable specifically designed for users of Sony PMW-EX cameras. It allows the operator to start and stop recording from the position of the camera's existing recording button.

2 BP-EX3 PMW-EX3 Battery Adaptor

This PMW-EX3 adaptor provides two BP-U type battery fittings, one of which can secure the XE-64 nanoFlash bracket. The adaptor's Hirose output can supply power to the nanoFlash with the XE-61 DC cable.

3 XE-61 DC Power Cable

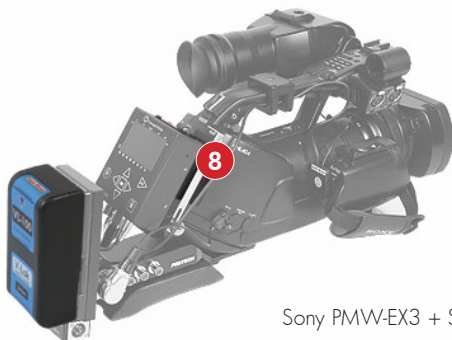

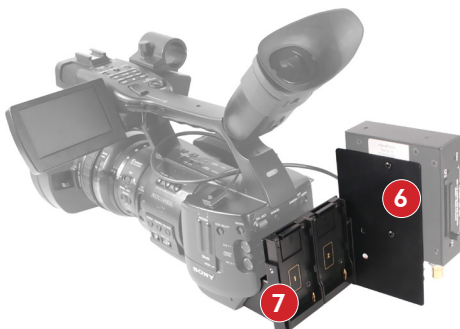

The XE-61 is a 4-Pin Hirose(M) to 4-Pin Hirose(F) type DC Cable. This cable can be plugged into the SQN power output on the BP-EX3 adaptor and run the nanoFlash. Power-Con and XLR versions are also available.

4 XE-64 nanoFlash Mounting Adaptor

This mounting adaptor will connect to one of the battery fittings on the BP-EX3 like a regular battery. With the nanoFlash screwed on, it provides a great mounting position on the rear of the camera.

Sony PMW-EX1

Sony PMW-EX3 + ST-7 Shoulder Mount

6 XE-60 nanoFlash Mounting Plate

The XE-60 is a nanoFlash mounting/powering kit. It will screw to the right-angled bracket on the PMW-EX Camera Adaptor range (like the DV-EX1 pictured). The DC cable can then supply power from the Hirose on these adaptors.

7 BP-EX1 PMW-EX1 Battery Adaptor

This PMW-EX1 adaptor provides two Sony BP-U type battery fittings and has a right-angles bracket that the XE-60 plate can be screwed to. The adaptors' Hirose output can then supply power to the nanoFlash.

8 XE-67 nanoFlash EX3 Dummy Battery Mount

The XE-67 is a nanoFlash dummy battery mount for the Sony PMW-EX3. The nanoFlash screw fits to the XE-67 mount, it can then be attached to the camera just like a regular Sony BPU battery. Ideal for use with an ST-7 shoulder mount.
