

Power-Con Plugs Parts and Cable Assemblies

The Power-Con plug range is Hawk-Woods version of the popular 'D-Tap' type two-pin plug, also often referred to as 'Anton Bauer type' or 'P-Tap'. This plug is popular in the broadcast industry, with the corresponding female socket often featuring on cameras, adaptors and other equipment.

We produce both male and female versions of this plug. These can be purchased as parts only (just the plug) or with a fitted bare-ended cable. We also offer a range of cable assemblies which combine the Power-Con plug with other types of plug. Examples of these are;

Part no.	Description
PC-4	Power-Con(M) to 4-Pin Hirose(M)
PC-5	Power-Con(M) to XLR4(F)
PC-7	Power-Con(M) to Two Hirose(F)
PC-8	Power-Con(M) to Two Power-Con(F)
