

The X-Boxx from **Hawk-Woods** gives you all the advantages of a conventional battery box, but with considerably less size and weight.

Designed to be carried or trolley mounted, this robust power pack will provide the user with a massive amount of portable power. Variations are available with between four and eight high capacity Lithium-Ion battery cells - providing up to a huge 48Ah/680W. A single XLR output is fitted as standard, though additional outputs are available upon request.

The X-Boxx is suitable for powering high capacity lighting, such as 200W+ Tungsten or HMI lamps. It's also ideal for running high draw cameras, like the popular **RED** camera. Hawk-Woods can supply the necessary cables required to combine all these products.

Capacity Variations Available

- **XB1-170** 14.8V /12Ah /170W
- **XB1-340** 14.8V /24Ah /340W
- **XB2-300** 26V /12Ah /300W
- **XB2-600** 26V /24Ah /600W
- **XB2-170** 30V /6Ah /170W
- **XB3-340** 30V /12Ah /340W
- **XB3-680** 30V /24Ah /680W
